

Get to know

INDIANA TECH

Tech is the practical application of knowledge. It transforms everything we learn into everything we're capable of doing.

Tech is not a specific industry, nor a modern invention. It goes by many names. Sometimes it's accounting. Or criminal justice. Or baseball. You find it in the economy—and in the arts. It's our history and our future.

When you get down to it,

TECH IS EVERYTHING.

So while some see a pitcher with a rocket for an arm, we see an athlete who's also a computer scientist aiming for the stars. While some see a first-year business major, we know that behind the spreadsheets there's an artist working toward realizing a vision.

Every day at Indiana Tech, we help students pull that distant dream into broad daylight where they can see it, try it and grasp it for themselves.

Everyone deserves that chance. We'll help you make it happen here.

45+

degrees available,
from arts and sciences
to business, health sciences,
engineering and more.

Founded in **1930**,
Indiana Tech is a private,
not-for-profit, comprehensive,
four-year university.

Main campus
is in **Fort Wayne,
Indiana**

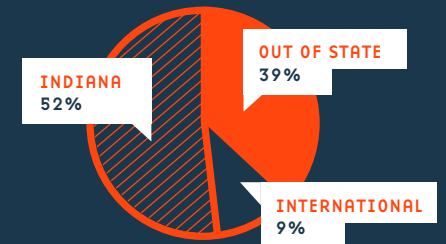

1,379

undergraduate
students,

the perfect size to feel part of a
tight-knit learning community.

Half of our
students are from
outside Indiana.*

*With 40 countries represented.
(That makes for diverse perspectives
and better learning)

In the heart of the Midwest

Our campus is located in northeast Indiana's cultural hub. Tech's home for 90 years, Fort Wayne is a city on the rise with a safe, vibrant downtown that students love to explore.

Proximity matters

Internships and job opportunities are all around, here and beyond. Fort Wayne is within a 300-mile radius of major cities, including:

- | | | |
|---------------|-----------------|-----------------|
| A. CHICAGO | D. COLUMBUS | G. INDIANAPOLIS |
| B. CINCINNATI | E. DETROIT | H. LOUISVILLE |
| C. CLEVELAND | F. GRAND RAPIDS | I. LEXINGTON |

Freshman Residence Halls

A PIERSON HALL FLOOR PLAN

B KALBFLEISCH FLOOR PLAN

Make yourself at home

We feature apartment and suite-style residence halls that are modern, clean and loaded with the features students love, including laundry and Wi-Fi. In addition, they are staffed by trained resident assistants who are there to help guide, solve problems and mentor students as needed.

44% of Indiana Tech traditional undergraduate students live on campus.

INCLUDED WITH ROOM & BOARD:

- Wi-Fi
- Use of laundry facilities
- Heating and AC
- Full meal plan
- Common rooms
- 24/7 security

93% of 2021 graduates are employed full time or continuing their education.

“Each professor at Indiana Tech has been completely invested in my future—taking time to help me understand material and granting me opportunities to grow professionally,” Cherokee said. “Indiana Tech helped me enter my field with confidence, and if I had it to do all over again, Tech would still be my top choice.”

Cherokee Bodell

BIOLOGY, B.S.
CLASS OF 2022

“Sports bring millions of people together every day to cry, scream, laugh and yell for their favorite teams and players,” Israel said. “My content helps ignite those feelings in the fans, and when it occurs, the feeling is very rewarding.”

Israel Vaides

SPORT MANAGEMENT, B.S.
CLASS OF 2021

“Having professors who have extensive experience working in industry not only taught us how things are done by employers, but it also provided important connections when it came time to search for internships and full-time positions. That knowledge and those connections can make all the difference in the world to a student who is competing for a job.”

Alexandra Forsythe

ELECTRICAL ENGINEERING, B.S.
CLASS OF 2022

COLLEGE OF ARTS AND SCIENCES

When Cherokee began pursuit of her degree in biology, she admits that she suffered from imposter syndrome and concerns about being able to stay on pace with her colleagues. But, by drawing strength from her faith and taking advantage of her Indiana Tech experience, the Pataskala, Ohio, native has a bright future in medicine.

In the summer of 2021, Cherokee earned a paid internship in the lab of H. Joseph Yost, Ph.D., vice chair for basic science research at the University of

Utah, whose laboratory group researches cardiac disease at the intersection between model organism embryology, genetics and the discovery of novel disease-causing mutations.

Her work in Utah was so impactful, she was invited to present her findings to the National Human Genome Research Institute at Duke University in April 2022.

“Her work has staggered my understanding of what an undergraduate research project could be,” said Indiana Tech professor of biology Dr. Julie Good. “She returned from the summer project and completed a second research project on campus. Both opportunities are significant milestones in her young career, and I am very proud of her.”

COLLEGE OF BUSINESS

When Israel was researching colleges, he chose Indiana Tech because of its solid sport management program and its connections with Fort Wayne’s successful minor league sports franchises. It was a well-thought-out choice.

Israel was able to intern with the Fort Wayne Komets, one of the oldest hockey teams in the United States. The Komets provided a nurturing environment for him; one where he could pursue his passion for creating inspiring video content and excel at it.

In June 2022, Israel parlayed his expertise into what he calls his dream job—as a creative videographer/editor with the Tennessee Titans of the National Football League.

It was no surprise to professor Craig Dyer, lead of Indiana Tech’s sport management program, that Israel was able to land this impressive position.

“He put in a tremendous amount of time and effort, asked for advice and surrounded himself with knowledgeable people who could help him flourish. Israel sought out and took advantage of every project and opportunity that was presented to him,” professor Dyer said.

TALWAR COLLEGE OF ENGINEERING AND COMPUTER SCIENCES

Alexandra Forsythe’s first connection with Indiana Tech came during her junior year of high school at the university’s STEM Summer Camp. It was the beginning of a long relationship with Indiana Tech and one of the most prolific collegiate careers a student has ever experienced at the university.

“I was able to have conversations with the professors and the students, and I saw how much of a family they seemed to be,” Alex said. “That single, outstanding experience within my major secured Indiana Tech as my top choice for my undergraduate degree.”

While at Indiana Tech, Alex earned several impressive internships with organizations like NASA, Raytheon, Ultra Electronics-USSI and Intel. Her duties ranged from programming and verification to designing cutting-edge technology, including a mission-critical circuit board that will be used on an upcoming space mission.

Now, Alex has an incredible position in Oregon as a design engineer with Intel, and she is pursuing a master’s in electrical engineering. Long term, she wants to earn a Ph.D. in electrical engineering, become an engineering fellow and work as an adjunct professor.

Straight talk about cost and financial aid.

At Indiana Tech, our education is both affordable and high quality—a valuable combination that makes Tech one of the best institutions in the Midwest.

INDIANA TECH COST BEFORE FINANCIAL AID*

Tuition and fees**	\$29,560
Room and board	\$10,854
Books (included in tuition)	\$0
Total estimated annual cost:	\$40,414

Visit [IndianaTech.edu/Calculator](https://www.indianatech.edu/calculator) to get a more accurate estimate.

Tuition and fees listed here do not account for scholarships and/or financial aid you may receive to help pay these expenses. If you're concerned you may not have enough scholarship and/or financial aid funds to cover your costs, please contact our office so we may assist you.

*Based on 2022-2023 cost
**Additional program fees may apply

100%

of our traditional undergraduate students receive institutional aid, such as scholarships or need-based grants.

Apply for financial aid and scholarships.

Starting Oct. 1 of your senior year, you can file the Free Application for Federal Student Aid (FAFSA) at studentaid.gov.

To receive a financial aid offer from Indiana Tech, file the FAFSA at studentaid.gov and add our school code: 001805.

First Things First

Take the first steps toward becoming a Warrior.

- 1: Apply free for admission using our online application.

→ [IndianaTech.edu/ApplyNow](https://indianatech.edu/ApplyNow)

Or add Indiana Tech to your Common App.

- 2: Send the following documents to Indiana Tech:

→ **Official high school transcript and/or official university transcript (if applicable)**

→ **ACT and/or SAT test scores (optional)***

ACT SCHOOL CODE: **1208** / SAT SCHOOL CODE: **1323**

You may email your PDF score report to Admissions@IndianaTech.edu.

* Student athletes planning on participating on an athletic team are still required to submit ACT/SAT test scores to Indiana Tech and NAIA for an initial eligibility determination.

→ **AP/IB dual credit transcripts**

- 3: Check your application status online through your student portal account.

→ Apply.IndianaTech.edu/Status

- 4: Receive your admissions decision.

THREE WAYS TO SEND US YOUR DOCUMENTS

1600 East Washington Blvd.
Fort Wayne, IN 46803

How to Pay

Once you've been accepted, it's time to research ways to pay for your education.

- 1: Complete your FAFSA.

→ **Starting Oct. 1 of your senior year, you can file the FAFSA at studentaid.gov**

→ **Indiana Tech's FAFSA Code: 001805**

→ **Indiana residents must submit FAFSA by April 15**

- 2: Review your financial aid awards with your admission counselor.

IMPORTANT DATES

OCTOBER 1	Begin filing FAFSA for new academic year
DECEMBER 1	Financial aid offers begin
JANUARY 6	Presidential Scholarship applications due by 5 p.m.
JANUARY 15	Early application deadline date for Questa
MARCH 15	Regular application deadline date for Questa
APRIL 15	Indiana state FAFSA deadline
MAY 1	Priority commitment deadline *
JULY 13, 14, 20 & 21	Become IT

* After May 1, deposits will not be refunded

Decision Time

Have you decided that Indiana Tech is the right place for you? These next steps will make it official!

- 1: Pay your \$100 tuition deposit for enrollment.

→ indianatech.edu/deposit

- 2: Pay your \$350 housing deposit.

→ indianatech.edu/deposit

- 3: Watch for an email with the subject line "Welcome to Indiana Tech." Use the temporary login credentials to access your LetMeIn student account and update your password. Then, you can use 1-Click Apps to access important resources throughout your time at Indiana Tech.

→ letmein.indianatech.edu

- 4: Apply for housing through the Residence Life Portal on 1-Click Apps.

→ letmein.indianatech.edu

- 5: RSVP for Become IT.

→ indianatech.edu/events

- 6: Check your Indiana Tech student email account. Professors, coaches and other important staff members will start contacting you via student email. Check it regularly, so you do not miss any updates.

→ my.indianatech.edu
